Dr. Vemuri is implementing ePrescribing in the office.

ePrescribing is a Federally mandated initiative that requires all physicians prescribe in this manner by 2011.

ePrescribing software sends prescriptions over the internet to your pharmacy in a safe, secure way, through the same technology used by credit card companies. This helps protect the privacy of your personal information.

ePrescribing software also lets your doctor see important information-like drug interactions and your prescription history.

- Less confusion over handwritten prescriptions or unclear phone calls
- Reduce possibility of medical errors
- Less chance of adverse drug reaction
- Fewer trips to drop off at the pharmacy
- A safer, faster, easier way to get your prescription filled
